INJURY International Journal of the Care of the Injured

INDEX TO VOLUME 26 1995

SUBJECT INDEX

abdomen
  colonic rupture, 337
acetabular wall
  incarcerated fragment after fracture, 645
acetabulum
  ilioinguinal incision extension, 207
  reconstruction, 199
acromion
  fracture and acromioclavicular dislocation, 636
alcohol
  injury severity and GCS in assault, 311
amputation
  closure of wound with skin stretching, 401
aneurysm
  abdominal aortic and head injury, 269
ankylosing spondylitis
  hidden injury of cervical spine in, 67
anstomoses
  rupture and free flap survival, 494
aorta
  ruptured abdominal aneurysm, 269
aortic valve
  tear and rib fracture, 353
approach
  ilioinguinal and Kocher–Langenbeck, 219
artery
  anastomoses rupture and flap survival, 494
  embolus caused by shotgun pellet, 631
  penetrating injuries of brachial, 249
  pseudo-aneurysm, 551
assault
  alcohol, GCS and injury severity, 311
atlanto-occipital dislocation
  diagnosis, 195
atrium
  rupture and diagnosis, 63
  rupture repair, 147
audit
  sternal fracture, 385

back
  symptoms and preceding injury, 335
bacteria
  peritonitis after injury, 55
banana boat
  how safe? 265
biomechanics
  medullary pressure in femoral reaming, 451
  reamed and unreamed tibial nails, 483
bipartite
  patella, 175
black eye
  with a twist, 121
boat
  how safe the banana boat? 265
bone
  diaphyseal and cerclage wires, 159
book reviews, 429
bowing injury
  adult forearm, 277
brace
  treatment of Colles' fracture, 587
British Trauma Society Proceedings, 133
bungee jumping
  comminuted proximal femoral fracture, 413
burn
  accidental in electrocoagulation, 357

calcaneal apophysis
  avulsion fracture in gymnast, 409
callus
  ultrasonography in fractures, 5
carcinoma
  refracture after irradiation, 559
carotid
  dissection and cervical anomalies, 349
carpal dislocation
  trans-trapezoid axial-radial, 417
carpal malalignement
  following radius fracture, 231
cervical anomalies
  traumatic dissection, 349
cervical spine
  injury in ankylosing spondylitis, 67
children
  anterior cruciate ligament rupture, 70
  delayed diagnosis of fracture, 281
  facial fractures, 43
  fractures of forearm and redisplacement, 691
  head injuries in Vietnamese refugees, 533
  injuries on artificial ski slope, 87
  metatarsal fractures, 537
  Monteggia fracture mechanism, 407
  nerve injury and humeral fracture, 343
  patella tendon avulsion, 126
  pelvic fracture, 327
  should they attend school with fractures? 609
  skull fractures, 333
  supracondylar fractures of humerus, 487
  tibial open fractures, 21
coagulopathy
  early awareness, 283
  embolization in multiple injuries, 677
coeliotomy
  morbidity, 393
Colles' fracture
  early mobilization, 671
  new functional brace for treatment, 587
colon
  delayed intercosto-diaphragmatic hernia, 204
  rupture into abdominal muscles, 337
compartment syndrome
  late management, 633
competence
  physician's in pre-hospital care, 471
complications
  postoperative and gastric injuries, 463
computed tomography
  A&E departments, 667
  haematoma mimicking visceral injury, 605
  skull fracture in children, 333
consciousness
  altered and CT in skull fracture, 333
cough
  fracture of rib, 565
craniofacial injuries
  absence of motorcycle helmets, 467
cranium
  injured in innocuous seeming injury, 279

death
  after femoral fracture, 237
delay
  diagnosis of fractured odontoid process, 281
design faults
  People Carrier and severe injuries, 261
diagnosis
  atlanto-occipital dislocation, 195
  delayed of fractured odontoid process, 281
  left atrial rupture, 63
  US and radiography for sternal fractures, 601
diaphyseal bone
  cerclage wires, 159
disability
  functional independence after injury, 97
dislocation
  acromioclavicular, 636
  atlanto-occipital, 195
  carpal, 417
  hip after intertrochanteric fracture, 645
  humeral shaft fractures, 129
  metacarpophalangeal, 123
  patellar and skyline views, 347
  patellar intra-articular, 273
  radial head with shaft fracture, 502
  triquetrum and perilunate, 497
  unusual irreducible patellar, 643
dog
  bite and maxilla fracture, 61
  severe injuries after pack attack, 37
drill guide
  simplifying screw fixation, 572
dynamic plate
  limited contact in upper extremity, 661
dynamization
  Orthofix Dynamic Axial Fixator, 117

ear
  overview and management of blast injury, 363
Editorial, 3, 435,
effusion
  traumatic in elbow joint, 475
elbow
  instability and epicondyle fracture, 267
  mechanisms of fracture, 163
  pulled and hypermobility of joints, 687
  traumatic effusion, 475
elderly patients
  hemiarthroplasty in fractured femur neck, 187
  management of displaced tibial fracture, 291
electrical injuries
  current concepts, 623
electrocoagulation
  accidental third-degree burn, 357
embolization
  pelvic ring disruption, 677

splenic pseudoaneurysm, 705
embolus
  anterior cerebral artery and shotgun pellet, 631
endoscopy
  stent placement in pancreatic duct, 553
epicondyle
  fracture and elbow instability, 267
epidemiology
  injuries in Mersey Region and North Wales, 51
  sports fracture of radius, 33
epilepsy
  bilateral fibula head fractures in, 562
eye
  black with a twist, 121

face
  dog bite and maxilla fracture, 61
  fractures in children, 47
failure
  Mennen femoral plate, 202
femur
  avascular necrosis of head, 351
  bungee jumping fracture, 413
  dynamic condylar screw, 241
  fracture and death, 237
  fracture and Russell–Taylor nail, 389
  fracture treated by hemiarthroplasty, 187
  gunshot fracture, 257
  intramedullary nailing in fracture, 379
  late open nailing for neglected fractures, 527
  Mennen plate, 202
  neck fracture as complication of nailing, 319
  neck stress fracture in marathon runner, 491
  osteosynthesis or external fixation, 323
  reaming and medullary pressure, 451
  reduction of temperature in reaming, 183
  stress distributions after fracture, 445
  unusual epiphyseal separation, 695
fibrin
  glue repair of atrial rupture, 147
fibular
  bilateral fractures in epileptic seizure, 562
  pseudo-aneurysm of artery, 551
finger
  dislocation, 123
fixation
  external as primary, definitive treatment, 245
  external for tibial fractures, 299
  failure in intertrochanteric fractures, 611
  fractures of the os calcis, 111
  new guide for coraco-clavicular screw, 572
  sacral fracture non-union, 65
  symphaseal disruption, 75
  temporary external for femur fracture, 323
flap
  survival and arterial anastomoses rupture, 494
flexion
  injury in ankylosing spondylitis, 67
flexor digitorum profundus
  unusual laceration, 550
flexor digitorum profundus tendon
  complete avulsion, 697
fluoroscopy
  usefulness of hard-copy prints, 331
forearm
  bowing injury in adult, 277
  fracture treated by shortening, 415
  fractures and redisplacement in children, 691
  unusual fracture and Monteggia injury, 407
forklift trucks
  injuries, 285
fracture
  acetabulum, 207
  as complication of nailing, 319
  avulsion of calcaneal apophysis, 409
  both-column, 219
  comminuted forearm and shortening, 415
  cough of rib, 565
  delayed diagnosis of odontoid process, 281
  diaphyseal tibial stress and osteoarthritis, 419
  displaced tibial in elderly, 291
  distal radius in sports, 33
  epileptic seizures, 562
  external fixation, 345
  femoral and stress distributions, 445
  femoral in bungee jumping, 413
  femoral pertrochanteric and necrosis, 351
  femoral stress in marathon runner, 491
  femur and dynamic condylar screw, 241
  femur and osteosynthesis or fixation, 323
  femur treated by hemiarthroplasty, 187
  fixation failure in intertrochanteric, 611
  forearm and redisplacement in children, 691
  gunshot of femur, 257
  gunshot of humerus, 93
  healed tibial refracture after irradiation, 559
  hip and urinary tract infection, 89
  humeral displaced fractures, 702
  humeral shaft, 129
  humerus in overweight patients, 263
  intertrochanteric and Variwall nail, 367
  intra-articular in distal humerus, 169
  late open nailing in neglected fractures, 527
  lateral epicondyle and elbow instability, 267
  maxilla after dog bite, 61
  mechanism in elbow, 163
  metatarsal in children, 537
  mobilization in Colles', 671
  monitoring healing with strain gauges, 181
  Monteggia injury mechanism, 407
  non-union, 65
  open of tibia in children, 21
  os calcis fixation, 111
  pelvic, 81
  pelvis in children, 327
  pilon and Goodall Targetting Device, 567
  proximal femur and death, 237
  radial shaft with head dislocation, 502
  radius and carpal malalignement, 231
  repair and protein immunohistochemistry, 523
  rib and aortic valve tear, 353
  rib and subclavian vein haemorrhage, 57
  sacral non-union, 65
  scaphoid and isotope bone imaging, 479
  Seidel locking nail, 13, 155
  should children attend school? 609
  skull in children and CT, 333
  sternum and 10 year audit, 385
  stress of os ischium, 411
  subcapital of hip and knee replacement, 421
  supracondylar of humerus in children, 487
  tibia and unilateral external fixation, 299
  tibial and osteoporosis, 459
  ultrasonography of callus, 5
  unrecognized in spine with tetraparesis, 562
fragment
  entrapped and irreducible syndesmosis, 569
functional independence measure
  disability and rehabilitation, 97

gastric
  injuries and postoperative complications, 463
Glasgow Coma Score
  injury, alcohol and assault, 311
glue
  repair of atrial rupture, 147
Goodall Targetting Device
  external fixators and pilon fractures, 567
graft
  acetabular reconstruction, 199
  sacral non-union, 65
groin
  lymphocele after blunt trauma, 500
gunshot
  fracture of femur, 257
  fracture of humerus, 93
gymnast
  avulsion fracture of calcaneal apophysis, 409

haematoma
  abdominal wall mimicking visceral injury, 605
  cervical spine injury, 345
  retropharyngeal, 339
haemorrhage
  embolization in multiple injuries, 677
  late subclavian vein after rib fracture, 57
head
  injuries in Vietnamese refugees, 533
  injury and abdominal aortic aneurysm, 269
  injury and Injury Severity Score, 399
  management of severe injury, 395
  meningitis 39 years after injury, 355
healing
  monitoring with strain gauges, 181
  PMN elastase, 103
heart
  subxiphoid pericardial window in injury, 299
  troponin T release and multiple injuries, 439
hemiarthroplasty
  fractured femur, 187
  hip head *in-situ*, 271
hernia
  delayed intercosto-diaphragmatic, 204
hip
  dislocation after intertrochanteric fracture, 645
  fracture–dislocation, 199
  fractures and urinary tract infection, 89
  head *in-situ* hemiarthroplasty, 271
  incarcerated fragment without dislocation, 645
  subcapital fracture and knee replacement, 421
humerus
  fracture and dislocation, 129
  fracture in overweight patients, 263
  gunshot fracture, 93
  intra-articular fracture, 169
  intra-thoracic displacement of head, 638
  Seidel locking nail in fracture, 13, 155
  supracondylar fracture and nerve injury, 343
  supracondylar fractures in children, 487
  treatment for displaced fractures, 702
hypermobility
  pulled elbow, 687

impalement
  management 191
infant
  unusual epiphyseal separation, 695
infection
  post-traumatic multiple organ dysfunction, 373
  urinary and hip fractures, 87
inflammation
  PMN elastase and wound healing, 103
injuries
  epidemiology in Mersey and North Wales, 51
  alcohol, severity and GCS in assault, 311
  back and preceding symptoms, 335
  bacterial peritonitis, 55
  blast to ear, 363
  bowing in adult forearm, 277
  disability and functional independence, 97
  forklift trucks, 285
  hidden in ankylosing spondylitis, 67
  innocuous in intracranial damage, 279
  Monteggia in a child, 407
  multiple and cardiac troponin T release, 439
  neck and preceding injury, 17
  occult cardiac, 299
  penetrating of brachial artery, 249
  severe and People Carrier design faults, 261
Injury Severity Score
  head injury, 399
irradiation
  refracture of healed fracture and, 559
isotope bone imaging
  scaphoid fracture, 479

junior staff
  tendon repair, 107

knee
  osteoarthritis in tibial stress fracture, 419
  replacement and subcapital hip fracture, 421

Kocner–Langenbeck approach
both-column fractures, 219

laparatomy
transpyloric feeding tube, 177
laser
therapy in orthopaedic population, 315
Leeds
improvements in trauma survival, 455
ligament
anterior cruciate rupture, 70
lightning strike
indirect via telephone wire, 629
limbs
sucking wounds, 151
liver
occlusion of hepatoduodenal ligament, 547
lymphocele
groin after blunt trauma, 500
war injury, 693

magnetic resonance imaging
management of tibial plateau fractures, 595
management
ATLS and induction courses, 253
blast injury of ear, 363
displaced tibial fractures in elderly, 291
impalement, 191
pelvic fracture in children, 327
pre-hospital for thoracic injury, 581
severe head injury in Northern Ireland, 395
late of compartment syndrome, 633
marathon runner
femoral neck stress fracture, 491
maxilla
fracture after dog bite, 61
measurement
value of ATLS and induction courses, 253
meningitis
secondary to ruptured mucocele, 355
metatarsal
fractures in children, 537
model
skin in wound closure, 213
motorcycle
injuries, 543
motorcycle helmet
craniofacial injuries in absence, 467
multiple cranial nerve injuries, 405
mucocele
ruptured and meningitis, 355

nail
broken, 286
femoral neck fracture as complication, 319
femur fractures due to gunshots, 257
gamma compared to dynamic hip screw, 61
intramedullary in femoral shaft fracture, 379
intramedullary reamed and unreamed, 483
removal of fragment, 531
Russell–Taylor in femur fracture, 389
Seidel locking in humeral fracture, 13, 155
Variwall reconstruction in fracture, 367
nailing
late open for neglected fractures, 527
neck
stroke following injury, 555
symptoms and preceding injury, 17
necrosis
avascular after pertrochanteric fracture, 351
nerve
injury and humeral fracture, 343
palsies caused by motorcycle helmet, 405
nerve injuries
in vascular trauma, 515
neuralgia
prepatellar, 225
new technique
broken cannulated screw removal, 59
non-union
model in rats, 681
model of rabbit tibial diaphysis, 619
sacral, 65
Northern Ireland
management of severe head injury, 395

occlusion
hepatoduodenal ligament, 547
odontoid process
delayed diagnosis of fracture, 281
orbit
and innocuous seeming injury, 279
Orthofix Dynamic Axial Fixator
bone healing, 117
os calcis
fracture fixation, 111
os ischium
stress fracture, 411
os odontoideum
congenital or acquired? 640
osteoarthritis
knee in diaphyseal tibial stress fracture, 419
osteoporosis
reduction after tibial fracture fixation, 459
osteosynthesis
femoral fracture, 232
outcomes
orthopaedic trauma surgery, 653
overweight
operative treatment of humeral fractures, 263

pack attack by dogs, 37
pancreas
stent placement in duct, 553
patella
bipartite, 175
intra-articular dislocation, 273
irreducible intra-articular dislocation, 643
prepatellar neuralgia, 225
skyline views in dislocation, 347
tendon avulsion in children, 126
pelvic ring
percutaneous transcatheter embolization, 677
pelvis
fracture analysis, 81
fracture in children, 327
symphaseal disruption, 75
People Carrier
design faults and severe injuries, 261
perilunate
dislocation with triquetrum dislocation, 497
peritonitis
bacterial, 55
pertrochanter
fracture and femoral head necrosis, 351
pilon
fracture and Goodall Targetting Device, 567
plate
limited dynamic contact compression, 661
Mennen femoral, 202
polymorphonuclear granulocytes
wound healing, 103
post-traumatic multiple organ dysfunction
antecedent infection, 373
pre-hospital care
physician's competence, 471
protein immunohistochemistry
fracture repair, 523
pseudo-aneurysm
intrasplenic managed by embolization, 705
lateral circumflex humeral artery, 551
pulled elbow
hypermobility of joints, 687
pulmonary
tuberculosis at injury site, 557

rabbit
non-union model of tibial diaphysis, 619
radiography
diagnosis of sternal fractures, 601
radius
fracture and carpal malalignement, 231
fracture in sports, 33
head dislocation with shaft fracture, 502
rat
experimental model for non-union, 681
reaming
pressure generation in femur, 451
reduction of temperature in femur head, 183
tibial nails compared with unreamed, 483
redisplacement
forearm fractures in children, 691
region
Mersey and North Wales, 51, 543
trauma workload, 25
rehabilitation
services and disability, 97
removal
cannulated screw, 59
retropharynx
haematoma, 339
rib
cough fracture, 565
fracture and aortic valve tear, 353
fracture and subclavian vein haemorrhage, 57
rugby
stroke follwowing neck injury in a player, 555
rupture
anterior cruciate ligament in children, 70
artieral anastomoses in free flap survival, 494
atrial repair with fibrin glue, 147
biceps femoris tendon, 275
colon, 337
left atrial, 63
mucocele and secondary meningitis, 355

sacrum
fracture non-union, 65
scaphoid
fracture and isotope bone imaging, 479
school
should children attend with fractures? 609
screw
drill guide for coraco-clavicular fixation, 572
dynamic condylar in femur fracture, 241
dynamic hip compared with gamma nail, 611
broken, 59
sesamoid
entrapment in finger dislocation, 123
shortening
treatment for forearm fracture, 415
shotgun
embolus to anterior cerebral artery, 631
skiers
children on artificial slope, 87
splenic injuries, 43
skin
model for wound closure, 213
stretching device in closing amputation, 401
skull
fracture in children and CT, 333
skyline views
patellar dislocation, 347
snowboards
injuries, 539

Reviewer Acknowledgement

Scientific publishing relies heavily on the enthusiasm and commitment of a large number of individuals, in particular the fellow scientists who give freely of their time and advice to ensure a standard of content and presentation for peer-reviewed journals. The Editor and Publishers of *Injury* would like to take this opportunity of thanking their reviewers for their invaluable help during 1995.
